TITLE: Clarence and Winona Gronning Collection

COLLECTION NUMBER: B2005.013

OVERVIEW OF THE COLLECTION

Dates: circa 1949-1956

Extent: 1 box; 0.2 linear feet

Language and Scripts: The collection is in English.

Name of creator(s): Clarence and Winona Gronning, Harold W. Johnson

Administrative/Biographical History:

The M/V Health was a "floating clinic," a marine unit of the Alaska Department of Health. The program was created to facilitate the battle against tuberculosis in Alaska after World War II. The M/V *Health*, along with the M/S *Hygiene*, were mobile health units that allowed medical professionals to treat rural Alaskans in their villages. The two ships serviced the coastlines of Alaska, from the Aleutian Islands to as far north as Point Hope.

Captain Clarence R. Gronning and his wife Winona served aboard the M/V *Health* in 1951-1952.

Scope and Content Description:

The collection consists of 455 color 35mm slides, most taken in the 1950s during the Gronnings' service aboard the M/V *Health*. There is one commercial slide (.268). Several images were taken in Whittier, where Clarence was based as captain of the Army tug LT-130. For more information, see Detailed Description of Collection.

Arrangement: Loosely arranged by subject and location
